(Quick User Guide)

6. Turn off Tester.
7. Cycle ignition ON to OFF 6 times to reset the system.
8. Connect tester and obtain new set of outcodes from vehicle.
9. Insert new codes into the web site and click the CHECK button to get the new incode.

REPEAT THIS PROCEDURE UP TO 9 TIMES OR UNTIL THE CODES WORK.

IF AFTER 12 ATTEMPTS A NEW BUTTON WILL APPEAR AND THEN YOU CAN SEND THIS CODE AS FAILED.

ADVANCED DIAGNOSTICS WILL THEN CHECK AND FIX THE CODES FOR THE NEXT TIME.

MOBILE PHONE ACCESS.

To help customers with small mobile phone and PDA computers here are direct web sites to enable easier access for the codes...
